Technology Architecture

Date	18 October2022
TeamID	PNT2022TMID19821
ProjectName	Project–University Admit Eligibility Predictor
MaximumMarks	4 Marks

TechnicalArchitecture:

- 1

Table-1:Components&Technologies:

Component	Description	Technology
User Interface	The Front-end part of the application	HTML,CSS
Application Logic-1	Logic for a process in the application	Python
Application Logic-2	Logic for a process in the application	IBM Watson
Application Logic-3	Logic for a process in the application	IBM Watson
Database	Data type ,Configuration	MySQL
Cloud Database	Database services on cloud	IBM DB2,IBM Cloudant,etc.
Libraries	Import Libraries into data	Numpy,Pandas,Seaborn,Matplotlib
File Storage	File storage requirements	Local File System
Machine Learning Model	Purpose of Machine Learning Model	Admission Prediction Model
Training and testing data	Purpose of training and testing data	Logistic Regression algorithm
Accuracy	Accuracy of the tested and trained data	Root Mean Squared Logarithmic Error(RMSLE),Mean Squared Error(MSE)
Infrastructure	Cloud Local Server Configuration	Local
	User Interface Application Logic-1 Application Logic-2 Application Logic-3 Database Cloud Database Libraries File Storage Machine Learning Model Training and testing data Accuracy	User Interface The Front-end part of the application Application Logic-1 Logic for a process in the application Application Logic-2 Logic for a process in the application Application Logic-3 Logic for a process in the application Database Data type ,Configuration Cloud Database Database services on cloud Libraries Import Libraries into data File Storage File storage requirements Machine Learning Model Purpose of Machine Learning Model Training and testing data Purpose of training and testing data Accuracy Accuracy of the tested and trained data

Table-2:ApplicationCharacteristics:

S.No	Characteristics	Description	Technologies Used
1	Open-Source Frameworks	List the open-source frameworks used	Flask Framework
2	Security Implementations	The user profile has been stored in a secured way	Encryptions
3	Scalable Architecture	Many computations can be done in a time saving and effective way	Logistic Regression
4	Availability	Our web application is available at anytime and at any place	IBM Load Balancer
5	Performance	As logistic regression is applied to develop the performance will be more effective	Logistic Regression
